

Nucleic Acid Delivery

Advanced transfection and tracking solutions for better research outcomes.

45% OFF

mirus bio®

Transfection + Tracking Without Compromise!

Why settle for traditional single component formulations?

TRANSFECTION

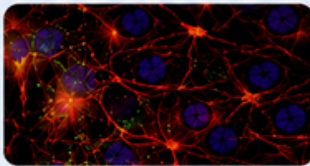

- Mirus Bio transfection reagents blend tailored polymers and lipids into a highly effective "lipopolyplexes," nanostructure.
- Drive high expression without killing delicate primary, immune, or stem cells or adversely affecting phenotypes.
- Wide range of effective transfection solutions for nucleic acids.

LABELLING & TRACKING

- Non-Destructive Live-Cell Visualisation
- Track the exact same cell being assayed
- Watch real-time intracellular trafficking without altering cell morphology

Track DNA and RNA with covalent fluorescent labels in a one-step reaction

- ✓ Fast, flexible protocol
- ✓ Adjustable labeling density
- ✓ Compatible with any cell type

Discovery Research Applications

Click on any of the specific applications below for more details

CRISPR/Cas
Genome Editing

Stem Cell
Transfection

mRNA and Viral
RNA Transfection

Stable Cell Line
Generation

Co-transfection

Electroporation

RNAi Gene
Silencing

Low Toxicity
Transfection

Nucleic Acid Labelling

TRANSFECTION REAGENTS PRICING

CODE	DESCRIPTION	VOLUME	LIST PRICE	PROMO PRICE
------	-------------	--------	------------	-------------

mRNA / Viral RNA Transfection

MIR 2225	TransIT-mRNA Transfection Kit	0.4 ml	\$1,522	\$838
MIR 2250	TransIT-mRNA Transfection Kit	1 ml	\$2,719	\$1,496
MIR 2255	TransIT-mRNA Transfection Kit	5 x 1 ml	\$11,902	\$6,547
MIR 2256	TransIT-mRNA Transfection Reagent	10 x 1.5 ml	\$22,024	\$12,114

Low Toxicity Plasmid Transfection

MIR 2300	TransIT-LT1 Transfection Reagent	1 ml	\$1,332	\$733
MIR 2304	TransIT-LT1 Transfection Reagent	0.4 ml	\$842	\$464
MIR 2305	TransIT-LT1 Transfection Reagent	5 x 1 ml	\$5,764	\$3,171
MIR 2306	TransIT-LT1 Transfection Reagent	10 x 1 ml	\$10,650	\$5,858

Broad Spectrum Low Toxicity DNA Transfection - Animal Free

MIR 5400	TransIT-2020 Transfection Reagent	1 ml	\$1,801	\$991
MIR 5404	TransIT-2020 Transfection Reagent	0.4 ml	\$912	\$502
MIR 5405	TransIT-2020 Transfection Reagent	5 x 1 ml	\$7,853	\$4,320
MIR 5406	TransIT-2020 Transfection Reagent	10 x 1 ml	\$14,515	\$7,984

CODE	DESCRIPTION	VOLUME	LIST PRICE	PROMO PRICE
------	-------------	--------	------------	-------------

Gene Editing CRISPR/Cas9 DNA, gRNA, RNP Transfection

MIR 6000	TransIT-X2 Dynamic Delivery System	1.5 ml	\$2,301	\$1,266
MIR 6003	TransIT-X2 Dynamic Delivery System	0.3 ml	\$549	\$302
MIR 6004	TransIT-X2 Dynamic Delivery System	0.75 ml	\$1,377	\$758
MIR 6005	TransIT-X2 Dynamic Delivery System	5 x 1.5 ml	\$9,974	\$5,486
MIR 6006	TransIT-X2 Dynamic Delivery System	10 x 1.5 ml	\$18,341	\$10,088

Nucleic Acid Labelling

MIR 3600	Label IT Nucleic Acid Labeling Kit, Cy3	labels 100 µg nucleic acid	\$2,738	\$1,506
MIR 3625	Label IT Nucleic Acid Labeling Kit, Cy3	labels 25 µg nucleic acid	\$1,098	\$604
MIR 3700	Label IT Nucleic Acid Labeling Kit, Cy5	labels 100 µg nucleic acid	\$2,738	\$1,506
MIR 3725	Label IT Nucleic Acid Labeling Kit, Cy5	labels 25 µg nucleic acid	\$1,098	\$604

Promotion valid until 31st October 2026. Promotion code: MBNucleicQ32026
