MORE INFORMATION

## AUTHENTIC IMAGING SPECIALISTS

- Chemiluminescence
- Epi fluorescence & multiplexing
- IR and NIR fluorescence
- UV fluorescence and colourimetry
- White light transillumination

*Demo on only selected models available*

**LEARN MORE**

## EXPERTS IN CENTRIFUGATION

- Mini- to high capacity centrifuges
- Refrigerated and non-refrigerated
- Low and high RPM/RCF
- Bench and floor standing
- European quality since 1949

*Demo on only selected models available*

**LEARN MORE**

## ISOPURE MINI NUCLEIC ACID EXTRACTION SYSTEM

- Fast, reliable and reproducible DNA / RNA extractions
- Process up to 16 samples in parallel
- 20-60 minutes purification time (sample dependant)
- Compact footprint (8" x 10")
- Android app compatible

**LEARN MORE**

## Ingenio® EZporator® Electroporation System

- Deliver any nucleic acid to hard-to-transfect, stem and primary cells
- Use a single, universal electroporation solution across all cell types
- Easily optimize electroporation parameters for each cell type
- Includes Ingenio® Electroporation Kit

**LEARN MORE**

## CERO 3D INCUBATOR & BIOREACTOR

- Improved viability and maturation
- Significantly reduced apoptosis & necrosis
- Stem cell, spheroid, organoid and tissue research

**LEARN MORE**

## CASY CELL COUNTER & ANALYSER

- Highly accurate and reproducible
- Automatically adjusts for aggregates
- Displays viable & dead cells, aggregates & debris

**LEARN MORE**
